## ABOUT ME

I am a Computer Engineering BSc student at BME VIK specializing in Smart Networks, graduating in January 2027. I am interested in cloud-based solutions, containerized systems, and modern DevOps methodologies. I possess confident knowledge in Linux and Windows environments, have university experience with AWS, Docker, and Kubernetes technologies, the Git version control system, and have acquired programming fundamentals (Python, C#, Java, Bash). I am patient, precise, flexible, and punctual; I learn quickly and can work effectively in a team.
